Dear Families

Re: NHS Influenza Vaccine for all students

Today you have received a letter from the NHS offering a flu vaccination for your child.

Please complete the form whether your response is Yes or NO and return it to school by Monday 13 September.

Included in the pack is information from the NHS explaining the importance of your child having the vaccination.

There is information about the nasal spray which contains a highly processed form of gelatine that comes from pork (porcine gelatine), which is used in a range of essential medicines. The gelatine helps to keep the vaccine viruses stable so that the vaccine provides the best protection against flu.

With kind regards

Kate Hussain
Vice Principal
