

Dear Parent

**Re: Year 6 Maths Booster**

We are pleased to be able to offer additional booster sessions to a certain number of pupils in Year 6. The sessions will take place **before** the school day begins every Monday, Thursday and Friday at **8:00 am** each week and will begin on **Monday 15<sup>th</sup> November**. The sessions will be focussed around maths arithmetic/reasoning skills and there is strong research to suggest that this will also have a positive impact on test scores and academic attainment.

Your child has been offered a place in this session as we believe that the additional support could really help him/her to excel further in maths and we strongly encourage that you allow your child to attend. Please can you complete and return the slip below to either myself or the office.

Kind regards

**Mrs. Nadeem and Mrs. Nore  
Year 6 Class Teachers**
